## ABOUT ME

Informatics Engineering student focused on frontend/full-stack development and graphic design. Experienced in building responsive web interfaces with CI, Laravel, Next.js and React, translating visual concepts into clean user interfaces, and supporting campus communication through digital design, branding, and media production. Seeking a developer internship where I can contribute to practical software products, polished UI, and collaborative engineering work.

## EDUCATION

### Politeknik Negeri Cilacap

Associate Degree (D3), Informatics Engineering

Aug 2024 - Present

Cilacap, Indonesia

- Relevant focus: web programming, frontend development, UI/UX design, database systems, algorithms, and software engineering.

### SMA Islam Al Azhar 24 Boarding School

Science Major | Final Grade: 90.24

Aug 2021 - May 2024

Bogor, Indonesia

## EXPERIENCE

### Frontend Developer - Lecturer Research Project

Collaboration with PT. Sarva Solution Indonesia

2025 - Present

Purwokerto, Indonesia

- Developing the frontend with python language and CustomTkinter Library for an automatic fish-sorting system, focusing on clear interface flows for monitoring and operating the machine.
- Working in a four-student team with separated responsibilities across frontend, backend and AI, IoT implementation, and 3D machine modeling.
- Converted research and technical requirements into responsive screens, component layouts, and user-friendly dashboard structure.

### Graphic Designer

Fiverr

2023

Remote

- Created social media visuals, branding assets, posters, and client-ready design materials while managing revisions and visual consistency.

## PROJECTS

### SIKAD PNC (Unofficial)

Web Programming II Course Project | Frontend Developer

2025

Cilacap, Indonesia

- Designed and implemented all frontend screens with CodeIgniter 4 for an academic information system with three teammates, covering structured page layouts, reusable UI patterns, and responsive views.

### Madani Montessori Landing Page

Personal Portfolio Project

2026

- Developed a clean responsive landing page focused on modern layout, strong visual hierarchy, and conversion-oriented sections.

### Madani Nidham

Personal Project | Web Development and Interface Design

2026

- Built a web project combining frontend implementation and brand-aware interface design, showcased as part of my developer portfolio.

## CAMPUS ACTIVITIES

### BEM PNC - Department of Communication and Information

Member

2024 - 2026

Cilacap, Indonesia

- Contribute to campus communication needs through design production, publication planning, and visual content support across two periods.

### Teaching Factory and UKM Protic

Graphic Design Staff | UI/UX Division Member

2025 - 2026

Cilacap, Indonesia

- Support department-level creative production and programming club activities through promotional design, interface concepts, user flows, and visual usability.

### Media Committees

Duta Kampus, IFest, PKKMB PNC, and Dies Natalis PNC

2025

Cilacap, Indonesia

- Handled Instagram feed editing, logo creation, event visual branding, and media coordination; served as media coordinator for IFest and PKKMB PNC.
